

# Ocean Habitat

## Animals and Stories

### Under the Sea

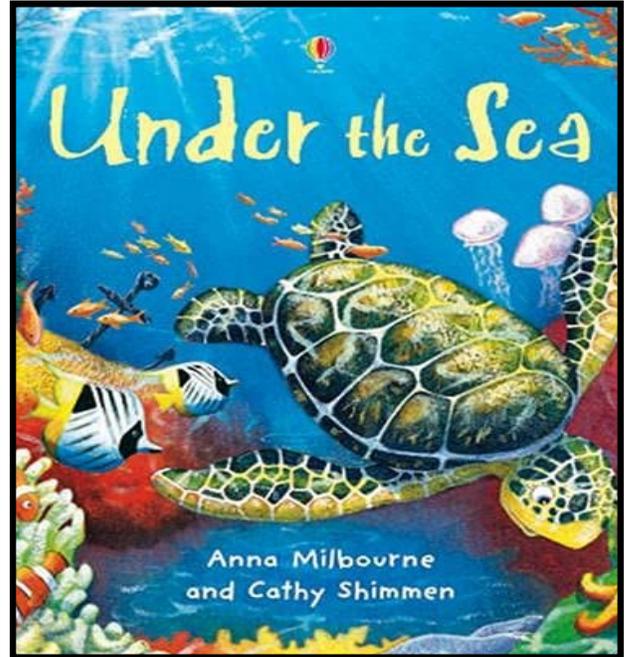

One of my new favorite books for toddlers and Pre-Kindergarten children. The beautiful illustrations and simple text stirs the imagination and opens up another world of wonder.

*Have you ever looked out to sea and wondered what lies under the waves? The sea is so big it reaches all around the world. In each place it's as different as can be.*

Under the Sea shares all types of creatures from sea turtles, eels, sea cows, rays, whales and dolphins. The book explores the different places they live in the oceans from coral reefs to the darkest depths of the sea.

*You could spend forever and a day exploring the deep blue sea. But sail far enough across the waves and you'll always come to shore.*

A wonderful book for a budding Oceanographer.

### Fish Eyes

**A BOOK YOU CAN COUNT ON**

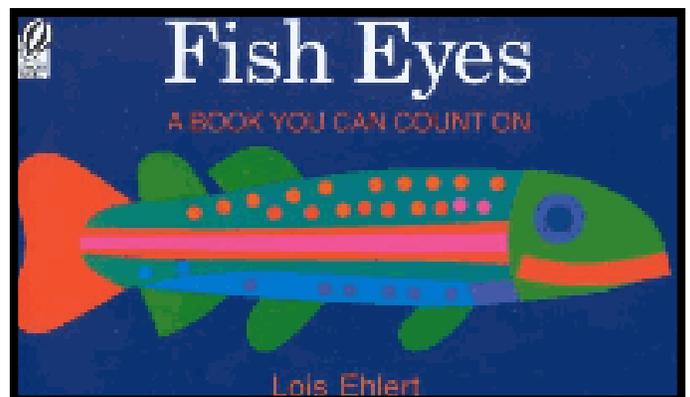

*What a tail ... If I could put on a suit of scales, add some fins and one of these tails, I'd close my eyes and then I'd wish that I'd turn into a beautiful fish.*

Lois Ehlert's imagination and artistic talents shines very bright in this tale of what if?

As the little fish explores the world of fish that surrounds him he always counts himself plus the others 1,2, 3, . . . Fish.

*How many fish can you count? Dive on in and see.*

A delightful way to use your imagination and learn to count to ten.

# Tails and Tales

## Baby Beluga

Canadian singer and song writer Raffi has several books that are labeled “Raffi Songs to Read.” and what better way to learn to read than singing a catchy tune.

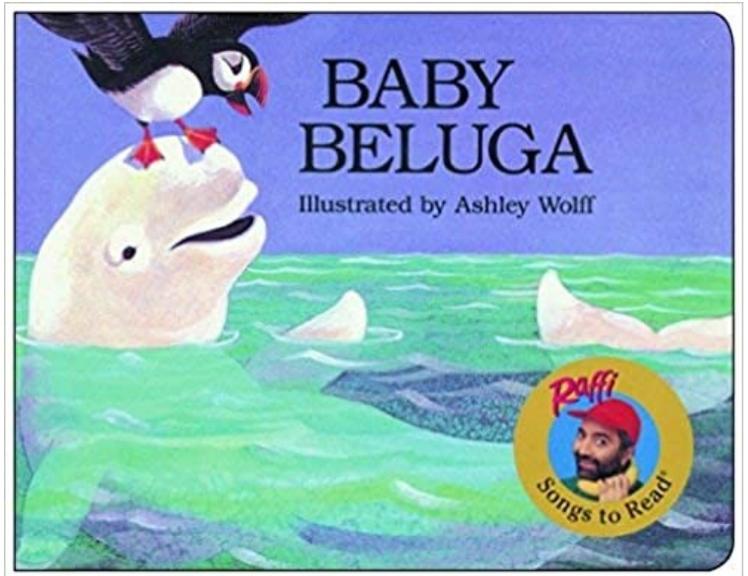

*“Song to Read is a natural bridge between singing and reading. Once children know a song, they find it’s fun and easy to follow it in pictures and words.” (Raffi)*

So join in with your little ones as you sing and enjoy Raffi’s Baby Beluga.

Hide - and - Seek

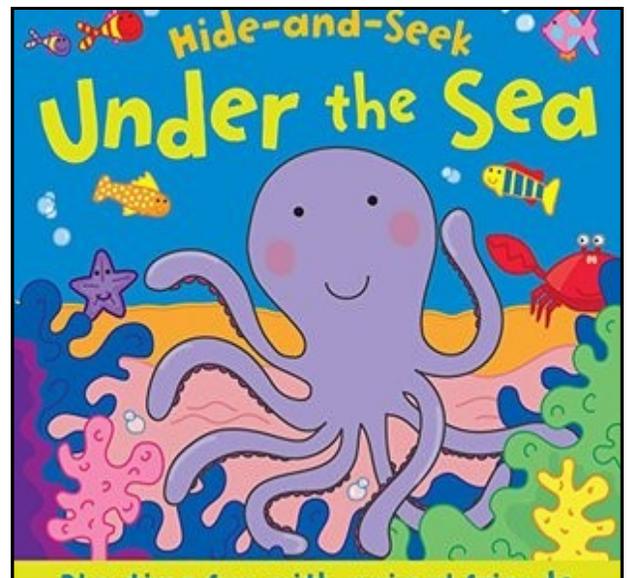

## Under the Sea

A colorful and simple story where little crab is having fun playing hide - and - seek with his friends.

This is truly a wonderful board book that is bright and colorful and being a larger size will fit comfortably in toddlers hands.
